Automated Gates | CCTV | Intercoms | Access Control | Perimeters | Alarms

Welcome to Quantum Security Solution's

Company Profile

www.quantumsecurity.co.tz

About us

Quantum Security Solutions is a limited company located in Dar es Salaam, the capital city of Tanzania and is involved in Sales, Installation & maintenance of cutting edge security (including surveillance) systems for both residential and commercial use.

We stock numerous high quality and industry proven brand names of security systems such as HIKVision, Centurion Systems, Nemtek from South Africa. Our technical team has also undergone extensive training and certification to ensure that we not only assist you to choose the appropriate products; but we also provide you with the highest standard of installation and after sales support.

Quantum Security Solutions Limited also provides extensive consulting services for specific projects from small clients to large multinational corporations that have sophisticated security system needs and require tailored solutions.

With our regional dedicated team of consultants and on site installation experts there is no job too complex to tackle for Quantum Security Solutions to safeguard your company and loved ones as well as your hard earned assets.

Evaluation

We first meet with you to ensure that we fully understand all of your priorities and preferences. This usually takes the form of a draft brief where we set out your overall budget and scope of the entire project and then break down each component to arrive at an estimate of the project; this will typically include materials and labor cost.

Design and Consultancy Services

Quantum Security Solutions offers an end to end Risk evaluation, Recommendation, Implementation and maintenance services.

The Process has a 4 step approach:

Step 1: Evaluation of the Current Status and risks posed.

Step 2: Map the desired state.

Step 3: Conduct gap analysis between Steps 1 and 2

Step 4: Recommendation, Planning and implementation aligned to resources available.

Q Products & Services

Automated Sliding/Swing Gates/Barriers

Supply and Installation of Centurion D2, D5, D10, A10, R10, etc. Full kits or Individual parts consisting of:

- Gate Motors
- Control box
- Back-up batteries
- Remotes and Sensors

CCTV & Surveillance Systems

Quantum Security Solutions is able to provide CCTV Surveillance Systems for use in security applications. Whether it is a basic stand-alone camera and recorder combination, or an advanced integrated system view-able from the comfort of your home television or multiple location
World-wide via your mobile phone, tablet, laptop or desktop, we are able to offer a bespoke system to suit your individual requirements.

Intercoms

Quantum Security Solutions offers a comprehensive range of audio, video and GSM intercom kits. A wide range of modular accessories allows customers to customize units to suit their specific needs.
By combining modules together, a system as simple as a single button or as complex as a multiple button with video, coded access or proximity sensor activation can be assembled.

Access Control (Time and Attendance)

We can also provide you with State-of-the-art access control software that integrates the most advanced security technologies with innovative networking capabilities to bring you full-featured security solutions serving any size facility.

Quantum Security Solutions will evaluate you access control requirements and design and install a solution that will seamlessly cater for your needs be it commercial or residential. The system goes as far as integrating time and attendance data with payroll system ensuring you are getting value for your money.

Perimeter Security

Quantum Security Solutions offers a range of perimeter security technologies spearheaded by tried and tested electric fence. These systems are founded on two core principles: deterrence and detection.

We will develop a custom-fit solution that will ensure we maintain both security assurance and aesthetics of your premise whilst guaranteeing your peace of mind

Alarm Systems and Intrusion Detection

Through our wide range of integrated intrusion detection optical sensors couple of security lighting, sirens and a variety of alarms systems, we can provide a fool-proof security solution that covers both the interior and exterior of your home or business. These systems can immediately send notifications to selected individuals' mobile phones once an intrusion has been detected.
